Our Most Popular Trainings

Advocacy 101

Learn what advocacy is, why it is important, and how to do it. This hour long workshop is structured to answer questions about advocacy, get you thinking about issues you may want to advocate for, and help you figure out where to start!

Advocacy Research

Know what you're talking about! Advocates are only as good as the research they have to back them up. Learn how to use statistics, media, and other resources to spread the word.

Everyday Leadership

What are the small building blocks of being an effective leader? Leadership skills will help you to inspire your peers to join you in your quest to make your school and community better places to live and learn!

Create Your Own

Is there a particular topic related to leadership, advocacy, or community engagement you would like to learn more about? We are open to your thoughts and would love the challenge of designing a workshop to meet your needs.

We cover topics like community mapping, fundraising, educating the community, appreciating diversity, understanding social justice issues, creating change in your school, and much more!
